GLEICHEN, ALBERTA, THURSDAY, FEBRUARY 13, 1919

\$1.50 Per Year

Agricultural Assoc. Entertain Royally

The Gleichen District Agricultural Association entertainment and dance on Friday evening proved one of the most successful of its kind ever held in Gleichen, the Opera House being filled and many were obliged to stand during the rendering of the excellent program.

After opening with selections by the town band President John C. Dafeo in a brief talk said:

"I am very much pleased to see so many present tonight. It shows the interest you are taking in the Gleichen Agricultural Association."

"I might say that the object of this entertainment is not for financial gain, but to foster a more social feeling amongst the people of the town and district, especially as new people are coming into our midst all the time and we do not want them to feel that they are in a strange land."

"Many of you may not be aware of what the Association has been doing during the last few months. Like some other concerns it was in bad shape financially owing to lack of interest, but when appealed to the people of this district came to the rescue and with few exceptions our canvassers were kindly received."

Mr. Dafeo with due explanation then read the following financial statement:

RECEIPTS	
Balance on hand.....	\$ 12 51
Shares, donations and membership fees.....	616 00
Total receipts.....	\$628 51
EXPENDITURES	
First payment to C. P. R. for land.....	\$221 05
Building repairs and painting.....	191 30
Salary and expenses.....	28 50
Total.....	\$440 85
Balance on hand.....	\$187.66.

The original cost of the land was \$210.50, but the interest on the deferred payments up to last June amounted to about \$165 more than that. When appealed to the C. P. R. generously cancelled the old agreement and entered into a new one, allowing the payments to be spread over twenty years. Surely we can pay \$221.05 an interest each year, and as the fine buildings are paid for and we are clear of all debt the Association is now in a satisfactory condition. Continuing the president said:

"I sincerely hope your interest will continue so that the society may make greater progress. This being one of the best agricultural districts in the province, we see no reason why our fair should be second to any in quality and we ask you to help make it a success."

"A committee has been appointed to see that strangers and old-timers meet, so that long before the evening is past all may be acquainted."

"On behalf of the Association I welcome you here this evening and trust that you will all enjoy your selves. I will not take any more of your time just now as we have quite a program prepared, with a supper and dance afterward. I now take pleasure in calling on the Gleichen band for a selection."

Mr. B. H. Bark, of the Demonstration Farm at Brooks, proved a most capable and interesting speaker, holding the attention of his hearers for about half an hour. During this time he touched upon many agricultural points showing how each one could be benefit-

Band Concert and Dance Tuesday, Feb. 25

Tuesday, February 25th, the new Gleichen Band have scheduled for their first public entertainment—let us predict right here that everybody and their friends will be at the Opera House that night at 8:30 sharp and in their seats, for at that moment up goes the curtain. And, be it remembered, that our band keeps perfect time.

Everybody admits that the Gleichen band is the best thing started in this town for a long time and now that they invite everybody to a good concert and dance in the hopes of raising a little money to provide themselves with uniforms it is up to all to give the boys the encouragement they deserve, for considering the few weeks they have been organized they certainly have an excellent band and one we are all proud of.

For some time they have been preparing for this concert and all may rest assured it will be a good one. We all know the band music is the best Gleichenites ever danced to, so that point is settled. Then the boys have decided to serve a luncheon.

The concert, dance and lunch will cost the gentlemen only \$1 and the ladies attend free but are asked to send a few sandwiches, cakes or whatever good edibles most convenient.

The Young Men's Club is fast becoming a very popular resort and he debates each Thursday night are most interesting and instructive. In brief the Club is an excellent institution that every young man should join.

ted by the holding of exhibitions and fairs. He maintained there was nothing that helped to encourage good farming than the farmers to compete with each other at exhibitions in grains, grasses, vegetables, poultry, livestock, etc. His brief talk was clear and to the point, and all who heard him do not hesitate to say that he is the best speaker that ever addressed a Gleichen audience on agriculture. When he comes here again he may count on a most hearty reception.

The speeches were nicely interspersed with an excellent musical program, which the audience showed thorough appreciation of and consisted of the following items:
Band selection.
Soprano solo by Mrs. C. J. Gaudaur.
Male instrumental selection by Messrs. Brown, Parsons, Sharman, McMullen, McCrary and Welsh.
Piano duet by Misses Miller and Walsh.
Baritone solo by Mr. J. Thom.
Reading by D. H. Crapo.
Scotch songs by Mayor Tudhope.
Concertina selection by Mr. T. Naylor. This last was exceptionally good and much appreciated as the gentleman is 87 years of age and still very active.

The supper served in the annex was equal to the best ever served in this town, which is saying a great deal, and to much credit cannot be given the ladies who so generously supplied and served it.
Too much credit cannot be given the committee in charge of the entire affair. They most carefully planned every detail and then with plenty of hard work carried it out to the letter, and the success it proved must be most gratifying to themselves as it was to all present.

Royal Arch Masons Install Officer

On Wednesday evening, January 29th, Bow Valley Chapter R. A. M. held their annual installation ceremony in the Masonic Hall. Rt. Ex. Companions F. G. Selwood and W. E. Mercer, of Calgary, A. R. Yates of Gleichen, assisted by Ex. Comp. Buttler of Strathmore, acting as installing officers, Rt. Ex. Comp. Selwood being Grand Superintendent of the district, made the occasion his official visit and found the books, regalia, etc., in good shape. During the session Ex-First Principal T. W. Bates in a few well chosen and appropriate words presented Immediate Past First Principal Ex. Comp. R. H. Struthers with a Past Principal's jewel on behalf of the Chapter, who suitably replied. After the close of the Chapter session dancing was indulged in until the small hours.

During the evening a sumptuous lunch was served by the ladies of Eastern Star, which, judging by the way the excellent dainties disappeared, was highly appreciated by all present. Everybody expressed themselves pleased with the entertainment.

The following officers were duly installed:
Ex. Comp. T. W. Bates, 7
A. G. G. Hamar, H.
R. P. Umbrite, J.
R. H. Struthers, S. E.
Companion W. W. Brown, S. N.
Rt. Ex. Comp. A. R. Yates, Treas.
Companion P. McLean, P. S.
Duncan McBean, S. S.
W. Walsh, J. S.
W. F. Ferguson, Janitor

Cluny Red Cross Dance and Raffle

The postponed Cluny Red Cross dance and raffle will be held in the Cluny school house on Friday evening, February 28th. Mrs. Trainor's orchestra has been engaged for the occasion and a good time is assured all who attend. The holders of raffle tickets on the comforter and pillow slips will please have them on hand that night, and anyone wishing them can obtain them from the members of the society.

T. H. Beach is offering Fred. W. Begg's horses, cattle, farm implements, etc., at Milo, for sale by auction.

In future the motion pictures will start promptly at 8:30.

CHANCELLOR

A local branch of the United Farmers of Alberta has recently been organized at Chancellor and starts off with 24 members and a number of others are expected to join at the next meeting, which is to be held on Friday, Feb. 14th.

The officers elected for the first term are:

President T. F. Toogood
Vice-President J. P. Gaunton
Secretary Fred. Crowe

That the new organization will prove a success is vouched for will be evident when the following list of members is read:

H. W. Atkins
Jas Ball
W. Atkins
A. Valade
Octava Plury
P. McDonald
C. L. Goegesen
N. L. Gensen
R. Fraser
Donald Dingwall
A. Gustensen
Duncan Dingwall
L. Laurinsen
A. L. Gorgensen
J. Campbell
J. Peterson
F. Flury
A. Fandry
J. Stark
J. Dyer
C. Rattery
F. Wheatly

At the C. R. R. colony we now have fourteen returned men on the ready-made farms and they all appear to be happy and contented. Each of them have from 55 to 70 acres ready for crop this year and already are preparing for the spring work. They are expecting a number more of their comrades to join them very shortly and with such a fine lot of men as these and the finest land out of doors we look forward to the Chancellor district becoming one of the most prosperous in the last best west.

Socially Chancellor is coming along nicely. We average two social evenings a month, which are held in private houses, but soon we have will a school house where we hope to spend many pleasant hours.

George A. Todd of Queenstown is leaving shortly for England to be absent a couple of years. He has leased his farm and instructed T. H. Beach to auction his horses, farm implements, etc., on Friday, Feb. 21st.

Monument Meeting Friday Evening

P. Thompson, designer for the Thompson Monument Co. Toronto, met with a few members of the Memorial Committee, together with a number of citizens on Monday evening in the sample rooms of the Palace Hotel. Owing to absence from town of many members of the committee no action was taken. However, those who saw the design prepared for Gleichen were much pleased with the general outlines and impressed with the message, the designer intends the monument to convey.

Mr. Thompson is on his way to Fernie, returning he will remain over on Friday. It is expected that the design will be on exhibition in Messrs. Henderson & Maloro's office during the day. The committee will meet Mr. Thompson in the evening and invite the public to attend.

FOR SALE—40 h.p. Catalac Automobile Tractor in first-class condition. Can pull two breaking plows. Will trade for horses or cattle. Apply to Sergt. O. Samson, Oluny.

FOR RENT—2 rooms in Larkin Block and 5 room cottage at rear. Apply R. W. Brown.

A GREAT
STOMACH BRACERMakes You Feel Lively and
Young—Removes That
Tired Feeling

At some period in our lives there is sure to come a time when the stomach is "off"—not working well—failing to enjoy and digest its food. Main thing then is to get the right remedy. You really want a soothing medicine, one which to act, sure on results, combining the virtues of a gentle laxative with a tonic effect upon the stomach, liver and kidneys. Certainly the world affords no better medicines for the stomach than Dr. Hamilton's Pills of Mandrak and Butterbur. Their laxative effect is ideal—can't be beaten! But in addition to their helpful action upon the bowels, these pills contain certain ingredients that strengthen and invigorate the muscles of the stomach, thereby relieving all sorts of stomach misery, indigestion, sourness, rising gas, headache and biliousness.

Just try Dr. Hamilton's Pills—they'll make you full of energy—brimming over with snap; they bring and maintain robust, sound, vigorous health, and isn't that just what you've looked for these many months? REFUSE A SUBSTITUTE FOR DR. HAMILTON'S PILLS. 25c per box, all dealers.

THE
COMLYN
ALIBI—BY—
HEADON HILLWARD, LOCK & CO., LIMITED
London, Melbourne, and Toronto

(Continued)

At that moment Jevons entered the orchid house from the dining room and addressed his master breathlessly.

"Miss Comlyn has been to Merlin Farm and remained there over half an hour," he said. "Afterwards the gentleman who lunched here today as the Reverend Clegg's father escorted her home."

"Did you hear anything of what passed?" inquired Morgan eagerly.

"Not a word. He's a downy bird that. On the quiet give all the time," said Morgan. "That damned Gaspard girl means to tell us," Morgan began furiously, but checking himself on an ominous sign he ordered the butler out of the room. The professor was shaking as with an ague.

"Is it exposure—the end of it all?" he whispered.

"Oh, dry up you cur," snarled the stronger roger. "Let me think a bit. No, I figure it this way," he went on. "Laura has recognized Kenyon, and so currying favor with him she has given Mavis Comlyn a hint that she can out think right for West. But if I know the wench she'll want her pound of flesh—stipulate that Kenyon shall marry her, as like as not, on condition that she enables him to save his skin. It is a thousand to one that the letter which started my idiotic fiancée to Merlin Farm was unsigned and it's about the same odds that it wasn't very informative as to details. You can bet that Madam Laura didn't show the whole of her hand. If she had wanted to give the show away without having an axe of her own to grind she'd have babbled to the police instead of playing these roundabout monkey tricks."

"But if she's putting a man like Clayton Kenyon on our trail she is none the less dangerous," whined the professor. "More so in fact. The best nose at the yard can't handle a clue like him. She ought to be stopped."

"She is going to be stopped," Morgan declared grimly. "I always scrap old and untrustworthy tools. Better make a note of that, Zim, against the time when your turn comes, as come it will if you don't get a cinch on yourself and play the man. Oh, yes, I'm going to stop Miss Laura Gaspard in every sense of the word."

With which the stronger pressed the button of an electric bell, bringing Jevons on the scene again.

"Tell Jacques to come here," Morgan ordered the butler. "And come back with him. You've both got to get busy."

Five minutes later the chauffeur who had charge of the great Daimler, and the butler who had fetched him came through the dining room and stood before their employer. Their attitude indicated curiosity rather than deference. Jacques Leroux was a tawny-skinned Provencal, some twenty-five years of age, with the face of a saint. He had fled his native land after stealing the lifetime savings of his mother, leaving her penniless. And in spite of his guileless appearance he had done other things, since his arrival in England, with which we have no concern, but which justified Kenyon's description of Comlyn Court under present conditions as "a nest of wrongs."

"Now see here, you two," Morgan fixed them with his compelling gaze. "I have made you big promises haven't I?"

The chauffeur bowed politely, leaving it to the suave Jevons to answer. "You are not the man to break them," "That is where you come in," was

the rejoinder. "I may have to break them if you don't shoulder your share of the burden tonight. And if I go down you go down with me, you understand that? Very well. In half an hour from now you will start in the car for London. Miss Gaspard will accompany you, and I don't want ever to see or hear of Miss Gaspard again. Do you get me?"

The butler and the chauffeur exchanged glances. "It is rather a tall order, sir," Jevons voiced their joint conclusion.

"You are both members of my raiding syndicate—to an extent that will make you rich for life, ain't you?" said Morgan. "Very well. If you don't do as I bid you the syndicate will go into liquidation, and to a dead end you'll be run in for conspiracy. With your past records you wouldn't stand a dog's chance."

Jevons cleared his throat. "We were not objecting," he replied. "I was only pointing out that you were trying to run a tight ship. Have you any suggestion as how we are to lose the lady on the road?"

"Oh, damn it all, no!" Morgan began to fume a little. "Gentlemen with your training don't need instruction on a trifle like that. But if you want to go to school again here you are. You will be crossing Dartmoor, if you go by Okehampton, shortly after dawn. There are wide spaces there where you couldn't meet a soul at noon—let alone at five in the morning. And Dartmoor is a pretty extensive cemetery. You will have the pick of any number of secluded grave sites."

Jacques Leroux, dapper in his chauffeur's livery, found tongue for the first time. He spoke English, but with an accent.

"Is it that it is to be an accident to the car, Monsieur?" he asked humbly. "That would be ver' great peety. I lof that car."

Jevons foreseeing an outburst of rage on the part of his master, brushed the protest aside.

"No need to damage the car," he interposed. "We can manage without that all right. There is a more important point. Is Miss Gaspard coming with us voluntarily, or is she to travel under compulsion?"

Morgan laughed harshly. "Good old Jevons, you always catch on," he made reply. "I don't know about voluntarily, but there won't be any fuss at this end—no trussing up and gagging, or foot tricks of that kind. I am going to send for her directly, and tell her she's wanted in Brown Street for a task I'll set her. She will be told that she couldn't reach London in time if she started from this benighted spot by train in the morning. She may suspect that I want to get her out of the way, but not—"

"Not quite so drastically," came a horrible chuckle from Zimbalist, whom the program sketched by his chief had made a great appeal. "He began to foresee safety for his own scorching skin. The human eyes, in the face of the gigantic orchid, no longer had terrors for him."

"The professor has supplied the missing word," sneered Morgan. "Now, Leroux, go and see to the car. And you, Jevons, send one of the maids to tell Miss Gaspard I want her. I'll fix her in the proper frame of mind for the journey."

The butler and the chauffeur turned to go, but half way through the French window Jevons stopped to ask:

"What about the girl's father? He is going to London by the first train in the morning. How am I to explain that his daughter hasn't materialized?"

"Any old yarn will do for him," said Morgan. "I have Louis Gaspard so as he can't kick. Tell him you brought the girl to town and that she got out in Piccadilly to speak to a friend."

CHAPTER XXIII
Midnight Mutiny

The butler and the chauffeur went through the house without exchanging a word till the door of the pantry closed on them. Then they relieved their pent-up feelings, each after his own fashion.

"A bit thick, eh?" said Jevons, his foxy eyes trying to pierce his colleague's habitual and impenetrable reserve—the armor-plated inscrutability which is the badge of the petrol driver.

But on this occasion Jacques Leroux was as open as the day, and his frankness was obviously the real thing.

"Beet theeek, you call it," his saint-like face worked with passion. "It is the crime of the most damnable he set us. Me, I do not mind, yare mouch what I do, but I, what you call draw the line at keeping a woman so lolely, so gay, so entirely ravissante, and in name, is it not so, a countrywoman of my own. Why, Monsieur Jevons, it is in me to lofe that denoiselle almost as I lofe my car."

Jevons breathed a sigh of relief. "I am glad you take it so, because I have no intention of putting my head in a noose for Mr. Jasper Morgan," he said, pouring for himself a liberal tot of brandy and for the chauffeur a glass of claret. "The question is how to work it, and we have only got a few minutes to decide. If we start in the car with the girl he will spoil us when she turns up alive, and he finds that we have sold him. He has his hand heavy on both of us, my friend."

"He have it vare 'eavy on me," sighed the chauffeur ruefully.

"Then," said Jevons, "we will shift the responsibility for the lady's escape on to the lady herself."

He touched a bell which rang into the servants' hall, and in answer to the summons Susan Heyer, the pert and pretty parlourmaid, appeared.

"Go up to Miss Gaspard's room and tell her that this house is unhealthy for her," he issued his command. "She must get out quietly inside five minutes, without being seen, and taking only a handbag of what she actually needs, for a day or two. The back door will be the best way, and through the fir plantation. You will go with her and take her down to your father's place on the beach. Persuade him to give her shelter for tonight. I will come down and ex-

FARM ARCHITECTURE AND BUILDING

plain to him in the morning. I shall be up, and will let you in when you come back."

(To Be Continued)

Electricity in
The Farmer's HomeSaves From Twenty to Twenty-five
Hours Labor a Week

Electricity is one of the most important labor savers being introduced on the farms today. It has much to recommend it for use about the farm premises.

It is safe and clean. Safe, because there is none of the risk and hazard about the use of electricity, properly wired and installed, that there is about any of the open flame lighting systems, candles, lamps, lanterns, gasoline, or gas.

It is clean. There are no smoky, smelly lamps to fill nor foul-smelling appliances to care for.

Electricity service can be had wherever a wire can be carried.

Just press a button and electric current is at hand to light the premises, to turn motors, for running all sorts of light machinery, and to provide heat for flatirons, warming pans, toaster stoves, and the like.

It will do a churning for one cent, and milk twenty cows with less than ten cents' worth of electricity.

It is the common testimony of farmers who use electricity about their property that they save anywhere from twenty to twenty-five hours a week that is, from the labor of all the members of the family, by means of electricity.

A one-sixth or one-fourth horse power motor will run most of the small farm machines, like the cream separator, churn, fanning mill, horse clipper, grindstones, washing machines for from two to four cents an hour, while to run a one-half horse power motor such as will operate a milking machine or several milks, would cost only three or four cents more.

It is in operations like these that electricity effects a time saving. For while it runs machines at almost no cost, hands are freed for labor that they must do—for tasks that must be done with time is worth—who can say how much; for who can say how many dollars an hour farm labor is worth in certain rough seasons when crops are crying for attention and help is scarce?

A little electric motor will run a pressure pump, keeping water piped automatically to any point desired about the house, barn yard or garden.

This provides running water for use in the dairy, kitchen, laundry, bathroom, or stock troughs or right at the mangers in the stable, just at a turn of the faucet, for sprinkling lawn and garden, for washing carriages or automobiles, and, quite as important, for fire protection. A pressure of fifty pounds can be maintained and this is sufficient to force a stream of water over any of the farm buildings.

Electric lighting is inexpensive. A good farm electric plant will produce electricity for five cents per kilowatt hour. At that rate, ten sixteen-candle power electric lights can be burned an hour for one cent. This cost is one-fourth of what it would cost to produce the same amount of light in kerosene lamps and it is better.

While electric light and power bring much comfort and convenience to the farmer and his family, the saving of time and labor that they bring about, and their influence upon the health and efficiency of those who have to bear the burdens of the farm, are equal value just now.

We may expect to see, during the coming months, a steadily increasing use of electricity on the farms, for the need for the power it can bring is great and farmers are realizing more and more every day what advantages come to them from the use of this convenient force, and they are calling on it to help out at a time when their need for help is great.

Those intending building homes should remember and provide for electricity, for the comfort and convenience it gives.

To Study Wheat Rust

Winnipeg, Man. — It is announced that Prof. W. P. Fraser, who has been connected with the biological department of Macdonald College for the past six years is leaving the college at the end of February to enter the service of the Dominion government.

Prof. Fraser has made a special study of rust in grain and has spent the past two summers in Western Canada doing research work in this connection. His headquarters and residence will be at Saskatoon.

As our bodies to be in health must be generally exercised, so our minds to be in health must be generally cultivated.—John Ruskin.

Folly for Builders to
Hold for Lower PricesDuty of Business to Go Ahead Say
Big Men of United States

A tendency on the part of business men to hold back new enterprises in expectation of lower commodity prices and wages is a mistake, in the opinion of Joseph E. Otis, vice president and acting head of the Central Trust company of Illinois.

"I have no sympathy for the man who is sitting back awaiting lower prices," said Mr. Otis. "The people who are waiting a drastic decline in prices aren't going to get it; they are going to get left. In other words, I don't believe we are going to see any immediate and drastic decline in commodity prices. There is a world-wide scarcity of many materials, and production costs are going to continue abnormally high."

"We have had perhaps a certain amount of inflation. To the extent that present high prices are due to that cause, moreover, we can expect no immediate decline. The process of deflation will be gradual."

"If we were all to hold back awaiting lower prices we should produce conditions of a sort that would benefit no one. It is the duty of business to go ahead and seize the opportunities now awaiting. If a manufacturer were to defer building needed additions to his plant in the hope of securing a lower construction cost it some indefinite time in the future, he probably would lose more profit on goods which he might have been producing and selling in the meantime than he will save on cheaper construction costs."

Frank W. Thomas, of A. O. Staughton & Co., said recently:

"In considering the outlook for commodity prices we must bear in mind that wages are going to continue high for an indefinite time, and that European competition, formerly so keenly felt in our markets, is not going to be so severe as it was before the war. Wages have been advanced abroad, with no immediate prospect of their return to the pre-war basis."

Frank A. Vanderlip, president of the National City Bank of New York, in an address delivered in that city recently, declared that it is possible to transfer 15,000,000 men now engaged in war activities to work of peace without greatly disturbing conditions.

"I would not argue that we can make this transition without any jolt," he said. "There will be some. But I believe that the demand for labor is so great that it is possible to make the transition without disturbance."

"We may make a cushion of public works. That is possible. But there are really tremendous orders that may now be executed, and, on the whole, I would not be surprised to find that we shall see no surpluses of labor, providing labor and the employer of labor each does his best to help in this readjustment."

John N. Willys, president of Willys-Overland company, says:

"Material prices and wages are not likely to come down in a hurry. With the passing of the first flurry of unsettlement of prices, which followed the signing of the armistice there is a noticeable steadying of the market."—From Chicago Daily News, December 19, 1918.

No man can make a fool of himself all the time. He has to sleep occasionally.

Women in all
Parts of Canada

TELL OF THE HEALTH DODD'S
KIDNEY PILLS BRINGThey Made a New Woman of Mrs.
John Mortimer, Who Was a Victim
of Kidney Disease.

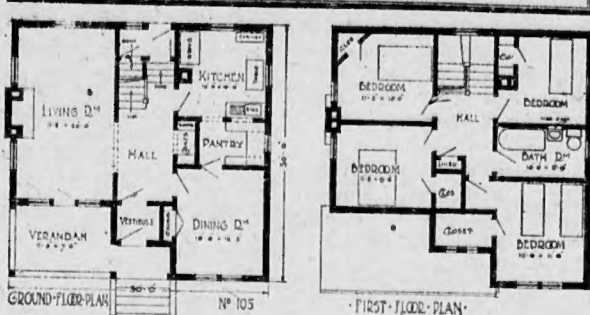

Glendon, Sask., February 10, (Special). — "Three boxes of Dodd's Kidney Pills made a new woman of me." Those are the words of Mrs. John Mortimer, of this place. They are words that have been used again and again by women in all parts of Canada who have suffered, and who have found relief and cure in Dodd's Kidney Pills.

"I feel it is my duty to let you know what Dodd's Kidney Pills have done for me," Mrs. Mortimer continues. "I had a pain in my back, and could not get out of bed without awful pain. I tried everything, but could get no relief. I was advised to try Dodd's Kidney Pills, and I sent to Toronto for them. The day I received them I took three before going to bed, and I felt a lot better next morning."

"I took them according to directions, and in one week I was as well as ever. I am fifty-five, and am doing all my household work, and I feel my back feels weak. I take a Dodd's Kidney Pill, and feel better in a few hours. I have recommended them to my friends, and they also have been helped."

If you haven't used Dodd's Kidney Pills ask your neighbors about them.

AN ARTISTIC HOME

Shown herewith is a home of somebody's choice. May we help you to analyze it?

This home will display itself to real advantage on a lot with fifty feet frontage, though it may be built on a smaller lot, the house as shown being 30 feet by 30 feet. The attractiveness of the exterior is due to the fact that architecturally the house is correctly proportioned, as well as that the lines are artistically correct and the finishing details such as the outside fireplace chimney, have not been overlooked.

The presence of the French window opening from the living room on to the verandah adds a detail that is usually absent in a house not designed.

The floor plans or room arrangements are worthy of appreciation.

A house with a central hall lends itself to good planning. Entering

this wide, short hallway one is bound to have a feeling that he has really entered the home. Did you ever have the sensation—there's a long way to go before I get to the folks—that associates itself with the narrow long hall of the average house?

The large, well-lighted living room with its open fireplace carries the feeling of welcome, too. The dimensions of the living room and the location of the windows make tasteful, homely placing of the furniture possible.

The dining room, with built-in china closet as shown, if you wish, the convenient pantry and kitchen, well lighted will find appeal in their possibilities for the prided hostess.

The upstairs, containing four bedrooms and large bathroom, is well lighted, too. The front room on the right with its large closet, lighted, will make an ideal guest room.

Lumbermen Discuss
Plan DepartmentHas Advantages for Both Customer
and Dealer—Value of
Advertising

Calgary, Alta. — The subject of the service and plan department of the Western Retail Lumbermen's association was a topic that developed into an animated discussion at the convention here as to whether the department should be curtailed or carried to greater efficiency. The matter was an open discussion that brought out a number of divergent views on the subject, the majority, however, deciding that the only policy to pursue was that of going forward and not retrogression.

The service was supported by Peter Lund, of Lethbridge, who rose and announced that, as he saw it, the question was one of the housing problem. This feature of the lumbering business, he suggested, contained more of the element of progress than that of any other project. He felt that it would be a mistake to curtail in any way the service department of the association. He admitted that there might be mistakes made, that the department might not be giving as good service and the greatest amount of satisfaction to every person as might be wished for, yet it tended toward the building of better homes and contained the true elements of the housing problem.

"Service should not be curtailed," he said, "but rather it should be developed to a greater degree of efficiency. We are living in a new country," he told his hearers, "and the demand is for better housing facilities, which must continue if the present development and improvement is to continue."

The discussion showed that the service department was of great assistance in the matter of securing sales; as one delegate remarked, "it gives greater service than any other can possibly give." He realized that the efficiency of the department must be maintained to its present standard and should be increased, as it tended to make sales for the individual dealer. In the case of small buildings he suggested, however, that it might be a good plan to cut off some of the frills and details.

If there is nothing in plan book that the customer wanted it raised the point with the customer as to just what he does want, and gives the dealer a chance to propose something along the line of what the cus-

tomers does want. The subject is then opened up, and it is a question of salesmanship from then on. In one case this dealer had sent out a plan and the customer came back with a number of improvements that could well be worked into the plan. This proved a great drawing card for the customer, and the result was that the service department came in for considerable good wishes on the part of both customer and dealer. This delegate would not hear of any curtailment in the matter of the service department.

It was also pointed out that at times there were certain discrepancies in the plans set out—that in point of the material required for the building, but it was also pointed out that in very few cases can there be found two contractors to agree on the amount of the material required.

This argument simmered down to the point that it was all a matter of the man employed on the job. The outcome of the discussion was that the convention agreed that with any reasonable workmanship on any plan sent out by the department, the details were in almost every case sufficient to fill the bill.

Wool Industry Growth

Edmonton, Alta. — Meetings of the directors of the Sheep Breeders' and the Swift Breeders' associations were held recently in the exhibition association offices, Edmonton. At the meeting of the Wool Growers' the statement as to the payments to members for wool marketed this year was perhaps, the most interesting matter on the agenda. The accounts showed that there were 102,000 pounds marketed, and the total amount to be paid out to the members would be \$64,923.81, less about 43 cents per pound expenses for marketing. It was found that the average price received was a little over 60 cents a pound.

GET SLOAN'S FOR YOUR PAIN RELIEF

You don't have to rub it in to get quick, comforting relief

Once you've tried it on that stiff, sore muscle, sciatic pain, rheumatic twinge, lame back, you'll find a warm, soothing relief you never thought a liniment could produce. Won't stain the skin, leaves no muss, wastes no time in applying, needs to give quick results. A large bottle means economy. Your own or any other druggist has it. Made in Canada. Get it today.

MONEY ORDERS
Dominion Express Money Orders are on sale in five thousand offices throughout Canada.

Timber Revenue

Reached Highest Figure Ever Known in the Department

Vancouver, B. C. — According to departmental figures placed in the hands of the Hon. T. D. Pattullo, minister of lands, the revenue from all timber sources in British Columbia for the month of December reached the highest figure ever known in the department, just tipping the scales at \$384,000. The return for the month of November, which was considered high at the time, did not exceed \$282,000, while the estimates for the current fiscal year anticipated a return from all lumber sources of not more than \$2,000,000. The minister of lands is hopeful that the estimated sum for the year will be exceeded by at least half a million dollars.

HELPS A WEAK THROAT STRENGTHENS THE VOICE CURES BRONCHITIS

By Breathing the Healing Balsams of Catarrhose You Are Cured Without Using Drugs

You breathe through the Catarrhose inhaler medicated air that is full of healing, soothing balsams, full of resinous antiseptic essences that resemble the air of the pine woods in the Adirondacks. This pine vapor has a truly marvelous action on weak throats. It brings strength and health to the bronchitis, stops that hacking, irritating cough, prevents hoarseness and difficult breathing. You can't find anything for weak-throated people on earth more beneficial than Catarrhose. It means heaven on earth to the man that has had bronchitis, catarrh or throat irritation. You will realize this the first time you use Catarrhose which is a scientific preparation specially designed for diseases of the nose, throat and bronchial tubes. Get the large size, it lasts two months, costs \$1.00; medium size 50c; sample size, 25c. All storekeepers and druggists or the Catarrhose Co., Kingston, Canada.

To Discharge Aliens

Vancouver, B. C. — Following a meeting with a special committee appointed by the Great War Veterans' association, the executive of the Vancouver employers' association decided to recommend to its members that alien enemies, if any are employed, be forthwith discharged and such positions be filled preferably by returned soldiers.

Miller's Worm Powders destroy worms without any inconvenience to the child, and so effectually that they pass from the body unperceived. They are not ejected in their entirety, but are ground up and pass away through the bowels with the excreta. They thoroughly cleanse the stomach and bowels and leave them in a condition not favorable to worms, and there will be no revival of the pests.

Money talks, but it's pretty hoarse at present, from arguing with the butcher and grocer. — Boston Transcript.

The only substitute for a chunk of wisdom is a chunk of silence.

Have Reached Agreement

Italy Will Give Disputed Islands to Greece

Paris. — I have reason to believe that Italy and Greece have reached an agreement outside the official conference concerning their respective claims, says a U. S. correspondent. The first point touches the so-called Dodecanese Islands. These islands, which are inhabited by Greeks, were taken from Turkey in the Tripolitan war and held by Italy as a gage of Turkey's good faith. The treaty of London of 1916 ensured their possession to Italy. Now that country apparently agrees to give these islands to Greece in accordance with the principle of nationality.

In return Greece agrees to internationalize the Straits of Corfu and support Italy's claim to keep possession of the region of Aylona, while Italy agrees to support the Greek claims in the Epirus. Greece will make no objections to Italy's possible desire for a trusteeship over Albania.

Advanced School Policy

Alberta Cities are Promised Assistance for Education

Edmonton, Alta. — In answer to a delegation of mayors from the principal cities of the province which waited upon Hon. Geo. P. Smith, minister of education, asking that the government assume the entire responsibility for secondary education in Alberta, maintaining all high schools from government funds; the minister stated that the proposed government control of high schools was a more advanced policy than had yet been adopted by any state in the world.

It could hardly be undertaken in Alberta during present conditions. Some financial assistance, however, was promised the cities for their schools, particularly in connection with high schools and technical work.

New Industry for Alberta

There is a prospect that Calgary will soon become the centre of another important industry. The city has been chosen as the location of studios for the picturization of a number of stories with a Canadian setting that have been read by hundreds of thousands of people in American and other magazines. Calgary is an ideal centre for such an enterprise. Within a short radius many varieties of scenery can be found, while the almost continuous sunshine is a great advantage to the camera man.

Thousands of mothers can testify to the virtue of Mother Graves' Worm Exterminator, because they know from experience how useful it is.

Better Get Passports

Ottawa. — Canadians travelling abroad other than to the United States, are advised to obtain passports from the passport section, department of external affairs. Notification has also been received from the British embassy at Washington that passports are necessary for all Canadian citizens leaving the United States for no matter what destination.

British Air Force Casualties 16,623
London. — The total of British casualties in the air service for the entire period of the war was 16,623. Of this number 6,166 were killed and 7,345 wounded. The remainder are missing or known to have been taken prisoner.

Minard's Liniment Cures, Colds, etc.

Food for Czechs
Paris. — The food administration headquarters announced that the American relief administration had received a shipment of 25,000 tons of food from Trieste at Prague for the Czech-Slovaks. The British and Italian governments also are shipping foodstuffs into this region. The entire efforts are being co-ordinated under the supreme food council, with Herbert C. Hoover, director.

Influenza Records

Winnipeg, Man. — The records of the department of public health show that 1,138 people died of influenza in Winnipeg during the epidemic and up to the end of January 1919. Of this total 179 died of pneumonia.

Italians and Serbs Disagree

Over Who Beat the Austrians and to Whom Fleet Belongs

Paris. — The proverbial tempest in a teapot has arisen here between the Serbs and the Italians over who beat the Austrians, and as to whom the Austro-Hungarian fleet belongs. Italians claimed that Serbian "intellectuals" addressed a manifesto to French politicians and others, charging the Italians with persecuting Jugo-Slavs in occupied territories, forbidding the wearing of the Jugo-Slav cockade, etc.; declaring the Austrian defeat on the Piave and the resultant collapse of the empire was due principally to the Jugo-Slav revolution and claiming the Austrian navy, because it was largely built, paid for and manned by Jugo-Slavs and seized it.

The Italian bureau of propaganda here issued a counter manifesto. It declared that the charges of persecution are based solely upon the arrest of a priest named Bonahini, a notorious Austrophile. The cockade which at first were authorized, were later banned, because they provoked disorders and made it possible for enemies of Italy to circulate freely through the occupied territories, as did the Austrian eagle, Bienfield, according to the counter manifesto. Bienfield, who led many night bombing raids on Venice, was able to walk through the streets of Trieste because he wore a Jugo-Slav cockade, it was charged.

The counter manifesto continues, with the statement that the downfall of the Austrian empire was due to the military efforts of Italy, Serbia and Russia, the allied hunger blockade, and finally to the Italian victory on the Piave.

Better Prospects in British Columbia

Decision of Messrs. Yarrow Due to Discouraging Labor Outlook in Scotland

London. — Discussing the decision of Messrs. Yarrow gradually to discontinue their shipbuilding on the Clyde and increase their work at Esquimalt, Vancouver Island, one of the directors of the company freely admitted that their action on the transferring of the business was due to the better industrial prospects of British Columbia and the discouraging labor outlook in Scotland.

The wisdom of the action of Yarrow is supported by Lynden Macassey in Lloyd's, who, after stating that at Esquimalt, owing to the output per man being anything up to 250 per cent. greater than on the Clyde, wages are normally much higher. He asks if British labor, with the sands so quickly running out, will not learn that production is the life blood not merely of a nation but the paramount condition of their own prosperity.

The Times shipping correspondent, describing a recent visit to Vancouver, contrasts the activity of Tacoma and Seattle to the comparative stagnation of Victoria and Vancouver, and insists on the capacity for development of the latter's shipbuilding plant, including Yarrow's, which was acquired from the British Marine Railway Company five years ago.

"Yarrow's managing director is at present in Vancouver, it is stated, preparing for its removal.

League Fulfills World Wide Need

In Itself Has Made the War Worth Fighting

London. — Former Premier Asquith, addressing a great mass meeting at Albert Hall, in support of a league of nations, said that rarely had so great an ideal passed so rapidly into practice. It fulfills a world-wide need and must have a world-wide organization, he declared.

Mr. Asquith said it had been accepted in principle by the statesmen at the Paris conference and that it in itself had made the war worth fighting. He emphasized that the league must seriously respect the sovereignty of the states, great and small, which are its members within their own domains and over their affairs. Temptations to war must be removed by the prohibition of conscription and the scaling down of armaments. He added that nationalization or internationalization in the sense of effective control of the manufacture and transportation of munitions might be necessary as an additional precaution.

In closing, Mr. Asquith emphasized the importance of the league in view of social unrest and upheaval and suggested that a league of classes was perhaps no more utopian than a league of nations seemed five years ago.

One sure sign that the war is over is the letter of a correspondent asking what finally became of Harry Thaw. — Toronto News.

Manitoba's Dead

Winnipeg, Man. — Manitoba has lost 3,785 in dead, presumed dead and missing on the battlefields in the great war, according to estimates secured from military men. Of this number 189 are officers. Figures for deaths in Manitoba are high, no fewer than 241 being thought to have died in uniform. More than sixty returned men alone have died of influenza.

Gaining Weight Feeling Fine

Was All Run Down, Tired and Exhausted Before Beginning the Use of the Great Food Cure

Sexsmith, Alta., Feb. 12. — This is the cheering sort of letter that comes from people who have used Dr. Chase's Nerve Food. This treatment forms new, rich blood and rich blood builds up the depleted nerve cells until the thrill of new life and energy is felt in every organ and member of the human body.

Because Mr. Edwards was also having some trouble with the liver and kidneys, he also used Dr. Chase's Kidney-Liver Pills to awaken the action of these filtering organs. The combined use of these medicines usually produces most excellent results, even in the most complicated cases.

Mr. Stephen D. Edwards, Sexsmith, Alta., writes:

"My nervous system was all run down, and I also suffered with my liver and kidneys. I could not sleep at night, and got up in the morning feeling tired and unrefreshed. I used to feel as if I wanted to die. In reading Dr. Chase's Almanac I noticed the number of letters from people who had been benefited by the use of Dr. Chase's Nerve Food and Kidney-Liver Pills, so I commenced using this combined treatment. It has done me a great deal of good, for I can now sleep well and do not have that horrid feeling I used to have in the mornings. I am gaining in weight and feel much better generally."

Dr. Chase's Nerve Food, 50 cents a box, a full treatment of 6 boxes for \$2.75. Dr. Chase's Kidney-Liver Pills, 25 cents a box, at all dealers, or Edmondson, Bates & Co., Ltd., Toronto. Do not be talked into accepting a substitute. Imitations only disappoint.

Petrograd BombarDED
Stockholm. — Petrograd has been bombed by Kronstadt artillery and many people have been killed, according to travellers who are quoted to this effect by the Finnish papers. Serious disorders are prevalent in the Russian capital.

Asthma Cannot Last when the greatest of all asthma specifics is used. Dr. J. D. Kellogg's Asthma Remedy assuredly deserves this exalted title. It has countless cures to its credit which other preparations had failed to benefit. It brings help to even the most severe cases and brings the patient to a condition of blessed relief. Surely suffering from asthma is needless when a remedy like this is so easily secured.

Money Advanced Belgium

Paris. — Ten million francs have been advanced to Belgium by Great Britain, France and the United States, this amount to be deducted from the first instalment of the war indemnity to be paid by Germany, according to Havas despatches from Brussels. The despatches add that the amount will be raised either by an inter-allied bond issue or by a German loan having priority over all other loans.

FACE A FRIGHT WITH PIMPLES

Also On Back. Kept Awake, Cuticura Healed at Cost of 75c.

"My face and back were all broken out with pimples, and my face was a fright to look at. The pimples festered and were so itchy that I scratched until the skin was sore and red. They kept me awake at night."

"When I saw Cuticura Soap and Ointment advertised I thought I would try them. I was completely healed after using one box of Cuticura Ointment and one cake of Soap." (Signed) Miss Mary Hasted, Cottam, Ont., August 19, 1917. Keep your skin clear by using Cuticura Soap and Ointment for every-day toilet purposes. Nothing better. For Free Sample Each by Mail address post-card: "Cuticura, Dept. A, Boston, U. S. A." Sold everywhere.

Must Have Passports

Necessary for Canadian Citizens Leaving United States for Any Destination

Ottawa. — Canadians travelling abroad other than to the United States are advised to obtain passports from the passport section, department of external affairs. Notification has also been received from the British embassy at Washington that passports are necessary for all Canadian citizens leaving the United States for no matter what destination. Owing to failure to secure passports, many have been delayed or turned back at United States ports when leaving such ports for Cuba, West Indies, Central and South America.

Douglas & Co., Proprietors, Nanaimo, Ont.

Italian Proposes Universal Tax

Would Provide Sinking Fund for Cancelling Debts

Paris. — A universal tax, the proceeds of which would be put into a common fund along with the indemnities Germany should be made to pay, is proposed by Senator Crespi of the Italian delegation to the peace conference on the proposition he has made for the establishment of a "single financial front" for the allies. The tax would furnish interest on that portion of the debts of the allies which Germany had not paid and provide a sinking fund for ultimately cancelling the debts.

Senator Crespi, who said his proposal for a single allied financial front had been well received by allied ministers, declared that his great point was that the central empires as a whole must be forced to compensate the allies for the war damages they have suffered. Responsibility was collective, he said, and all the enemy states would have to pay in proportion to their wealth.

Prince Rupert's Growth

Customs Receipts Shows Substantial Development

Prince Rupert, B. C. — The customs receipts for Prince Rupert for 1918 totalled \$238,084.78. This shows a substantial development in the port. Fisheries took an important part in the business of the district. Throughout the year, the halibut catch amounted to 15,206,700 pounds; salmon, 99,934,500 pounds; cod, 2,218,900 pounds; herring, 2,390,400 pounds; flat fish, 1,539,000 pounds. Prince Rupert's building permits for 1918 presented a total expenditure of \$106,304, of which \$55,400 was spent on the extension of warehouses and wharf buildings along the water front.

Allies Watch Hindenburg

Paris. — Reports coming through Amsterdam, stating that Field Marshal von Hindenburg is raising four army corps for the protection of Germany's eastern frontier in military circles here. The allied military men are interested in particular, for the reason that if Field Marshal von Hindenburg were successful in collecting such a body of troops its existence would upset the present calculations of Germany's armed strength, on which the size of the allied army of occupation is to be based.

To Cure a Cold in One Day
Take LAXATIVE BROMO QUININE (Tablets). It stops the Cough and Headache and works off the Cold. W. GROVE'S signature on each box. 30c.

More Subs. To Be Delivered

London. — Under the terms of the armistice there are 50 more German submarines to surrender to the British navy.

At present there are 98 of these craft in British naval ports, thirty-seven having been distributed among the allied powers for technical examination. These submarines have already sailed for various allied ports where naval constructors will make a careful study of their machinery and internal equipment.

French Occupied Kohl

Strassburg. — The 38th division of the French army formally occupied the town of Kohl, on the opposite bank of the Rhine from Strassburg, in accordance with the new armistice terms reached on Jan. 15. General Hirschauer, the governor of Strassburg, reviewed the troops in the market place in the presence of the German mayor and sub-prefect. He then read a proclamation announcing the occupation. The mayor and sub-prefect replied, declaring they had only the best intentions toward the French.

Offenders Must Suffer

Evidence Being Collected Against Those Who Made War

Paris. — Sir Gordon Hewart, the British attorney-general and member on the committee on responsibility for the war, made a brief statement for the press of the British view of punishment of enemy offenders, according to an official communiqué. "The British view," said the attorney-general, "undoubtedly is that these offenders, however highly placed, must be made to suffer suitable punishment without any avoidable delay."

"Who precisely are these offenders; what offence will be charged against them, and by what process punishment will be imposed are questions requiring most careful consideration. Nor is it convenient to discuss these questions, as many questions before the peace conference may be discussed, publicly. The commission of offence and punishments is really engaged in a task of criminal investigation and for that task secrecy is no less important than despatch."

"Three sub-committees have already been appointed, one to collect and examine the facts, and the other to consider questions of law."

"The foundation of the whole matter must, of course, be evidence, and in this department, as well as upon questions of law, the commission will derive much assistance from the careful and continuous labors of the committee appointed last November by the law officers of the crown. A great mass of most valuable material has already been brought together and this work is being continued without pause."

Perm Freed of Anarchists

Omsk. — Two divisions of the Bolsheviks have been virtually annihilated by Serbian troops under General Gaidar at Kungur, fifty miles south-east of Perm, according to an official statement issued here.

The city of Perm is declared to be safe from Bolshevik troops. People who had fled from Perm to Ekaterinburg, in Burma, and other towns, are returning.

The losses of the Siberian troops in the battle of Kungur are not given. General Gaidar's forces are now twelve miles from Ufa, which was taken by Bolsheviks forces some time ago.

Italian Warships to Stop Trouble

Rome. — Disorders of an anti-Italian character must be repressed by the commanders of Italian warships anchored or cruising in the waters of Istria, Dalmatia and Albania, according to an order issued by the minister of the navy. At the same time the minister ordered that the warships be kept in readiness to land parties for the repression of disorders and that careful watch be kept that no acts provocative of trouble occur on either side.

Catarrhal Deafness Cannot be Cured

by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure catarrhal deafness, and that is by a constitutional remedy. Catarrhal Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a running sound or imperfect hearing, and when it is entirely closed, Deafness is the result. Unless the inflammation can be reduced and this tube restored to its normal condition, hearing will be destroyed forever. Many cases of deafness are caused by catarrh, which is an inflamed condition of the mucous surfaces. Hall's Catarrh Cure acts thru the blood on the mucous surfaces of the system. We will give One Hundred Dollars for any case of Catarrhal Deafness that cannot be cured by Hall's Catarrh Cure. Circulars free. All Druggists, 75c. F. J. CHENEY & CO., Toledo, O.

French General Coming to Canada

Ottawa. — Gen. Pau, the famous French soldier, who has been head of a mission to Australia and the Orient, is expected in Ottawa about the middle of this month. He will arrive in Vancouver this week. The government is providing a special train to carry the distinguished veteran across the continent.

Monument of Trees

Paris. — The Rev. Father Lennire, who sits in the chamber of deputies from the department of the Nord, moved his fellow members in the chamber by a speech proposing that an avenue of trees be planted along the entire battlefield, which would serve as a place of pilgrimage for those who do not know where their dead fell. He asked that the government buy the battlefields and make a forest from the North sea to the Vosges mountains. Albert Lebrun, minister of the invaded regions, said cemeteries would be laid out at points where the fighting was heaviest and entire battlefields would be transformed into national monuments.

Admiral Jellicoe To Visit Canada

London. — The Canadian Associated Press learns Admiral Jellicoe, in the course of his naval mission to the Dominions, will reach Canada in the latter part of October, remaining there until January. Admiral Jellicoe will leave England February 20 for India, where he will remain one month. Then he will spend four months in Australia and New Zealand, afterwards visiting Fiji, Samoa, Honolulu and San Francisco. From Canada he will go to South Africa.

GOOD DIGESTION A GREAT BLESSING

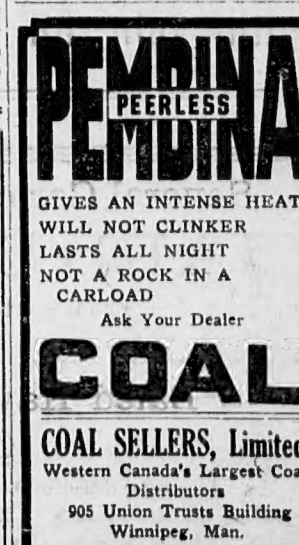

An Acute Sufferer Tells How She Found New Health

Very few people appreciate what good digestion means until they lose it. To be able to eat what you want and to properly digest it is a priceless blessing. But if you find that your digestion is in any way impaired you cannot afford to risk experiments by trying uncertain remedies. Strong medicines are hard on the stomach; pre-digestion foods only aggravate the trouble. What is needed is a tonic that will so strengthen the stomach as to enable it to do its own work. There is no tonic for the stomach that is not at the same time a tonic for every other part of the body. As the blood circulates through all the body an improvement in its condition quickly results in strengthening any weak organ. Rich red blood is absolutely necessary to good digestion. If your stomach is weak, if you are troubled with sour risings in your throat, a feeling of nausea after eating, pains or fluttering about the heart, try at once the true tonic treatment of Dr. Williams' Pink Pills. So many people have been helped by this treatment that every sufferer from indigestion should promptly try Dr. Williams' Pink Pills. Among the many who rejoice in a renewed digestion through the use of this medicine is Mrs. William Dale, Midland, Ont., who says: "I suffered for a long time from a severe form of indigestion, and had doctored so much without benefit that I had all but given up hope of getting better. Everything I ate caused me intense pain, and some days I did not touch a thing, but a cup of cold water, and even that distressed me. As a result, I was very much run down, and slept so poorly that I dreaded night coming on. I was continually taking medicine, but was actually growing worse instead of better. Having often read the cures made by Dr. Williams' Pink Pills, I finally decided to give them a trial. I have had great cause to bless this decision for by the time I had used a couple of boxes there was no doubt the pills were helping me, and in less time than I had anticipated the pills had cured me, and I was again enjoying not only good digestion but better health in every way than before."

You can get Dr. Williams' Pink Pills through any medicine dealer, or by mail at 50 cents a box, or six boxes for \$2.50 from The Dr. Williams' Medicine Co., Brockville, Ont.

Will Decide on Government

Luxemburg. — The council of the Grand Duchy of Luxemburg has introduced in the chamber of deputies a bill providing for a referendum to decide whether the people of the Grand Duchy wish to change the form of its government to that of a republic. A proposal to have the plebiscite determine also if Luxemburg wishes to be politically annexed to France or Belgium was stricken from the measure as premature.

7:15 P.M. Service of song.
7:30 P.M. Evening service.

Save by the W.S.S. plan.

Mail Contract

Sealed Tenders, addressed to the Postmaster General, will be received at Ottawa until noon, on Friday, the 7th February, 1919, for the conveyance of His Majesty's Mails, on a proposed Contract for four years, twice per week on the route between Gleichen and Lake McGregor from the Postmaster General's pleasure.

Printed notices containing further information as to conditions of proposed Contract may be seen and blank forms of tender may be obtained at the Post Office of Gleichen, Lake McGregor, Milo, Majorville and Queenstown and at the office of the Post Office Inspector.

Post Office Inspector's office, Calgary, 27th Dec., 1918.

D. A. BRUCE,
Post Office Inspector.

BUY A N IRRIGATED FARM FROM THE CANADIAN PACIFIC RAILWAY BECAUSE:

Irrigation makes the farmer independent of rainfall, and in sure good crops, not occasionally; but every year.

Irrigation makes possible the successful culture of alfalfa, the king of fodders, which insures good returns in dairying and mixed farming.

Irrigation means intensive farming and close settlement with all the advantages of a densely populated agricultural community.

Irrigation in the Canadian Pacific Railway Irrigation Block is no longer an experiment, the years that it has been tried having absolutely demonstrated its success wherever in intelligently applied.

This is the most liberal offer of irrigated farm land on record. For full particulars apply to

ALLAN CAMERON, Gen. Supt. of Lands
Canadian Pacific Railway, Dept. of Natural Resources, 928 1st. St. E. CALGARY, ALBERTA

You can buy irrigated land from the Canadian Pacific Railway at prices up to \$50 per acre, with 20 years to pay and the privilege of a loan of \$2,000 for improvements (6% interest) no principle after first payment until end of fourth year, reduced interest if settlement conditions are complied and no water rental for first year. Contract can be paid off before maturity if desired.

MISCELLANEOUS

Notices under this heading 15 words or under 50c for one issue and 3 issues for \$1. Over 15 words one cent a word charged for each insertion.

Horses and Cattle lost and found, for sale and wanted; Seed Grain for sale and wanted; Land to sell, rent or buy, and any other of a similar nature will get quick results by being published under this heading.

For a Quicker Start

When you start your car, don't try to do it all with the starter button, for that only wastes the current. Prime your cylinders and

1. Set your controls right, with retarded Spark and throttle slightly open.
2. Throw out the clutch and take some of the load off the engine.
3. Then and not till then—step on the button, and away she'll go.

We test, repair and recharge storage batteries, and always carry a full supply of battery parts, new batteries and also rental batteries.

Restoring Peace to the World

The eyes of the world are focussed on Paris where the leading statesmen of the civilized nations are deliberating on the Peace Conference, endeavoring to reach solutions of the many great problems confronting mankind, solutions which must be found if lasting peace is to be attained and the interests of all people adequately safeguarded. The British Empire, and Canada as a nation within the Empire, is represented in the Peace Conference and with the deliberations in the French capital it is not our intention to deal. The question to which the attention of the people of Western Canada may, however, be directed is what part, if any, they are yet called upon to play in making the world safe for democracy.

The general tenor of all reports from Paris is to the effect that the most difficult of all problems confronting the Allies is not how to deal with our enemies of the past four and a half years, nor is it how to adjust in an amicable and satisfactory manner the opposing interests and claims of the Allies, difficult as these may be. The outstanding problem which gives rise to keen anxiety in all countries is how to check discountinuity, Bolshevism, anarchy, which is spreading from Russia into many countries, particularly in Europe.

Can the people of Western Canada do anything to assist in this great task? Apparently they can do much, if President Wilson and the Allied leaders now in conference in Paris have sized up the situation correctly. They have come to the conclusion that just as the provision of an adequate supply of food was a prime essential to winning the war, so is food supply the keystone to the re-establishment of order and good government throughout the world. People who are hungry and starving, and suffering all the distress which lack of food means, cannot be reasoned with nor controlled. Lack of food to sustain life encourages law-

lessness and all the Bolshevik tendencies latent in man.

In his message to Congress urging the appropriation of one hundred million dollars for food relief in Europe, President Wilson said:

"Food relief is now the key to the whole European situation and to the solution of peace. Bolshevism is steadily advancing westward, poisoning Germany. It cannot be stopped by force, but it can be stopped by food, and all the leaders with whom I am in conference agree that concerted action in this matter is of immediate and vital importance." He added: "I do not see how we can find definite powers with whom to conclude peace unless this means of stemming the tide of anarchy is employed."

Western Canada performed miracles in food production during the war, and it would seem that our duty in the present crisis lies in the same direction. Whether a guaranteed fixed price for our 1919 wheat crop is established or not, and even though prices drop to a considerable extent from the high figures, all authorities are agreed that prices will range much higher than the old pre-war figures, and that there will be a market for all the foodstuffs Western Canada can produce. While profits may not, probably will not, be as great as during the last two or three years, there should remain a substantial margin of profit to the food producer.

Nobody understands the farmer's own business as well as the farmer himself, and we know of no class in all Canada which has been more quick to respond to all the calls of duty and patriotism than the men on the land. The object of this article is not, therefore, to tell the farmer what he ought to do—he is the best judge of that—but merely to draw attention to the world situation as it exists, and as it appeals to the leading statesmen of the world to whom the people have entrusted direction of their national and international affairs.

This existing situation seems to point to the conclusion that, just as the Western Canadian farmer helped so materially to win the war for freedom and civilization, so can he now be an important factor in bringing about order and stable conditions throughout the world. And the re-establishment of such conditions are, everyone will admit, necessary to the prosperity of all nations and all people and the resumption of peacetime trade throughout the world.

Married Nurses Barred

Not Eligible for Appointment to Nursing Service

Ottawa. — Married women will not, hereafter, be eligible for appointment to the Canadian army medical corps, nursing service, it was learned at the militia department.

It is further stated in these orders that married women, not being widows, who are now employed in the nursing service, will be relieved of duties, except in the case of those whose husbands are still overseas. Such nursing sisters may be continued on duty, if so desired, but not after the return of their husbands from overseas.

No nursing sister, married without permission during her service will be retained on duty.

Special cases may be considered if the circumstances of the married nursing sister and her dependents appear to the district authorities to warrant such submission.

Minard's Liniment Cures Diphtheria.

The Echo de Paris says that disarmed German Zeppelins will be converted into aerial merchantmen to ply between New York and Ham-

Siberia Lacks Railway Facilities

Transport Situation Has Paralyzed Business Life of Country

Ottawa. — The practical impossibility of the economic situation in Siberia being improved until the restoration of normal railway facilities with the interior is expressed in a report to the government from L. D. Wilgress, a member of Canada's economic mission to Siberia.

Mr. Wilgress, who writes in his capacity as Canadian trade commissioner to Siberia, states that when the Czechoslovaks re-established communications with western Siberia in September last it was anticipated that a large quantity of supplies urgently required by the civil population would be transported from Vladivostok. Important business in foreign goods became brisk, but these expectations were never realized because the transport conditions became steadily worse.

When the report was written not more than ten freight cars per day were being despatched from Vladivostok to western Siberia as compared with from 50 to 150 cars per day during the greater part of 1917. The transport situation, Mr. Wilgress says, has "paralyzed the economic and business life of the country."

Warts are disfigurements that disappear when treated with Holloway's Corn Cure.

People Did Not

Know of Treaty

Premier Declared Existence Was News to Australia

New York. — "Australians feel that the Marshall and Caroline Islands rather than be dominated by Japan, should come under international control," Thomas Joseph Ryan, premier of Queensland, en route to London on affairs of state, declared before sailing on the liner Coronia for Liverpool. He also said that the reported secret treaty between Great Britain and Japan in regard to the islands "was news to us in Australia."

"Although the Japanese navy did convey the ships carrying the Australian troops to the front," he said, "it is, and I believe always will be, the feeling in my country that immigration must be restricted to the white race."

As to the so-called secret treaty that has come into prominence within the last few days regarding the Pacific possessions, I think that the people of Australia will want to know if the premier, William Morris Hughes and Sir Joseph Cook, minister of the navy, knew of these secret treaties or concurred in them. Contrary to the protestations of Japan, their existence was news to us in Australia.

To Abolish U-boats

London. — The abolition of submarines as warships may be decided upon by the league of nations committee during the coming week, according to the Paris correspondent of the Mail. It is said that this is one of the several understandings reached during the conference.

Thinks Swearing All Right

Providing the provocation equals the offence of Jones stepping on Smith's corns. Far better to use Putnam's Corn Extract—it does cure corns and warts in one day without pain. Try "Putnam's" free from acids, and painless, price 25c at all dealers.

Victoria Air Mail

Postal Service Is Within Bounds of Possibility

Victoria, B. C. — With flying boats able to make from 85 to 90 miles an hour and capable of carrying 250 pounds of mail, the establishment of an aerial postal service between Vancouver and Victoria, and Vancouver and Nanaimo, is within the bounds of possibility, and there is a strong probability that before next summer is very old, Hoffer Bros., of Victoria, will be in a position to give demonstrations of its practicability with the flying boat they are now constructing. The practicability of such a scheme presents no difficulties to Messrs. Hoffer Bros., of Georgia street, who recently have commenced construction of a new building in which to complete the flying boat. The machine they are constructing will cost something like \$11,000, of which \$6,000 is represented by the motor. It is designed to carry three passengers, or, with case, 250 pounds of mail.

Making peace seems to be a far more complicated matter than making war.—Detroit Free Press.

It is the struggle to keep up appearances that keeps some persons down.

Some women swear like men, while others will not even darn socks.

TROOPS IN TURKEY

Paris. — The military representatives of the supreme war council, in accordance with the instructions given them by the council, are taking steps to secure an early meeting to arrange plans for the distribution of the entente forces, if the latter should be necessary, within the Turkish empire. Fresh reports of maladministration of the Armenians and other subject races by local Turkish governors and the refusal by the Porte to apply the necessary corrective measures are understood to have been the reason for the action of the council.

Early Plowing

Energetic Farmer Already Plowed Section This Year

A tribute to the bright, sunny and mild weather which Alberta has been experiencing this month is the fact that plowing has been possible. Pulling eight plows with a 30-36 gas tractor, James W. Dow has just finished plowing a section of land near Cumy, and according to a report in a Calgary newspaper, is now preparing to disc 200 acres ready for spring seeding.

Writing to Calgary for some repairs, Mr. Dow stated he was not having the least difficulty in getting the plows to work.

Rub It in for Lame Back

A brisk rubbing with Dr. Thomas' Electric Oil will cure lame back. The skin will immediately absorb the oil and it will penetrate the tissues and bring speedy relief. Try it and be convinced. As the liniment sinks in the pain comes out and there are ample grounds for saying that its touch is magical, as it is.

Japan Builds Warships

Tokio. — Details of Japan's greater navy program include the sister battleships Nagato, to be launched in July, and Natsui for October. Each battleship will be 40,000 tons, with 16-inch guns. Work on two other great ships will be started soon, it is reported.

LISTEN TO THIS!
SAYS CORNS LIFT
RIGHT OUT NOW

You reckless men and women who are pestered with corns and who have at least once a week invited an awful death from lockjaw or blood poison are now told by a Cincinnati authority to use a drug called freezezone, which the moment a few drops are applied to any corn, the soreness is relieved and soon the entire corn, root and all, lifts out with the fingers. It is a sticky ether compound which dries the moment it is applied and simply shrivels the corn without inflaming or even irritating the surrounding tissue or skin. It is claimed that a quarter of an ounce of freezezone will cost very little at any of the drug stores, but is sufficient to rid one's feet of every hard or soft corn or callus.

You are further warned that cutting at a corn is a suicidal habit.

Civic Milk Supply

Winnipeg, Man.—In all probability Winnipeg, in the near future, will have a municipal milk supply of its own. Application will be made to the service legislation board for legislation to establish a dairy system.

TO ALL WOMEN
WHO ARE ILL

This Woman Recommends Lydia E. Pinkham's Vegetable Compound—Her Personal Experience.

McLean, Neb.—"I want to recommend Lydia E. Pinkham's Vegetable Compound to all women who suffer from any functional disturbance, as it has done me more good than all the doctor's medicine. Since taking it I have a fine healthy baby girl and have gained in health and strength. My husband and I both praise your medicine to all suffering women."

—Mrs. JOHN KOPPELMANN, R. No. 1, McLean, Nebraska.

This famous root and herb remedy, Lydia E. Pinkham's Vegetable Compound, has been restoring women of America to health for more than forty years and it will well pay any woman who suffers from displacements, inflammation, ulceration, irregularities, backache, headaches, nervousness or "the blues" to give this successful remedy a trial.

For special suggestions in regard to your ailment write Lydia E. Pinkham Medicine Co., Lynn, Mass. The result of its long experience is at your service.

B.C. Has Most Coal

Fifty Minerals Essential to Industry To Be Found in the Province

Vancouver, B. C. — "Minerals of the iron and steel industry," formed the subject of a highly interesting address given to the chamber of mines, Vancouver, recently, by Dr. Edwin T. Hodge, professor of geology at the University of British Columbia. He spoke in an optimistic manner, and mentioned about fifty minerals, each of which was essential to industry, and each of which was to be found in the province. His statement that the iron and steel industry required not so much iron as coal to make it a success startled his hearers. Canada, he said, had 1,200,000 million tons of coal, and of this, British Columbia had the best and the most.

CHILDHOOD CONSTIPATION

Constipation is one of the most common ailments of childhood and unless it is promptly cured will undoubtedly lead to disastrous results. To cure this trouble nothing can equal Baby's Own Tablets. They are a mild laxative which instantly regulate the bowels and sweeten the stomach, thus banishing constipation, colic, colds, etc. Concerning them Mrs. Eugene Vallancourt, St. Mathieu, Que., writes: "When my baby was constipated I gave her Baby's Own Tablets and am well satisfied with the result. I would strongly recommend them to all mothers for this trouble." The Tablets are sold by medicine dealers or by mail at 25 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

Wolves Destroy Food

Calgary, Alta. — Enough caribou flesh is destroyed by wolves in the barren lands of northern Alberta and Saskatchewan every year to feed a large part of the population, says J. A. Rouse, who has spent the last fifteen years in Alaska, Peace River and northern Saskatchewan.

Only One "BROMO QUININE" To get the genuine, call for full name LAXATIVE BROMO QUININE Tablets. Look for signature of E. W. GROVE. Cures a Cold in One Day. 30c.

Organized University

London. — Many civilians who have been interned in Austria are arriving in London.

While they have many tales to tell of their hardships, they say they were not so badly treated as those interned in Germany. Many were allowed to continue their occupations in Vienna, others being sent to country villages. Only those who were destitute were interned in prison camps.

At the village of Karlstein civilians of all nationalities who were interned organized a "university"—any man teaching any subject he knew well. Here they were able to study motor engineering and torpedo construction, and they also had an excellent opportunity for learning various languages.

B. C. Land Settlements

Victoria, B. C. — Melbourne H. Nelems, formerly of St. Thomas and Woodstock, Ont., has been appointed chairman of the British Columbia land settlement board, succeeding Maxwell Smith. The reorganized board will have a membership of three, C. R. Ward and F. R. Dahart being the other members.

Relief for Suffering Everywhere

He whose life is made miserable by the suffering that comes from indigestion and has not tried Parmelee's Vegetable Pills does not know how easily this formidable foe can be dealt with. These pills will relieve where others fail. They are the result of long and patient study and are confidently put forward as a sure corrector of disorders of the digestive organs, from which so many suffer.

Good News
For Farmers

Small Tractors and Meat Cattle Stop On Free List

Ottawa. — Gasoline farm tractors costing less than \$1,400 remain on the free list "until otherwise provided for." Meat cattle remain on the free list for another year, dating from Feb. 7, 1919.

Both were originally placed on the free list for one year, dating from Feb. 7, 1918. By further order-in-council, the period in which "Remission and refund of duty" are authorized is now extended as indicated.

An additional order has been passed, granting a drawback of 99 per cent. of the duty paid on imported materials used after the 7th day of February, 1919, in the manufacture of gas or gasoline traction engines for farm purposes and repairs thereof, and in the manufacture of traction attachments and repairs with automobiles in Canada for use as traction engines for farm purposes.

It is understood that the number of these engines imported for farm purposes has been several thousand per annum, while the quantity manufactured in Canada each year has been less than 5 per cent. of importations.

IN EVERY STABLE

SPOHN'S DISTEMPER COMPOUND

is the one indispensable remedy for contagious and infectious diseases among horses and mules. Its success as a preventive and cure for DISTEMPER, INFLUENZA, PINK EYE, COLIC and COLDS for more than twenty-five years is the highest tribute to its merit as a medicine. It is endorsed by the best horsemen and live-stock men in America.

Buy it of your druggist.

Used for 40 years to relieve rheumatism, lumbago, neuralgia, sprains, lame back, toothache, earache, swollen joints, sore throat and other painful complaints. Have a bottle in the house. All dealers or write us.
HIRST REMEDY COMPANY, Hamilton, Canada

Expect Big Yield

Bumper Crops are Anticipated in Manitoba This Year

Winnipeg, Man. — Conditions were never better at this time of the year than they are now, and the prospects for a good crop next season were never brighter in the opinion of J. H. Evans, deputy minister of agriculture, as expressed recently.

Mr. Evans referred to the large areas of new breaking land prepared for spring sowing, and emphasized the point that prospects were never better in Manitoba than today for a bumper crop, if anything like satisfactory weather conditions prevail during the summer.

Britain Warns Strikers

Trades Unionism Passing Through Gravest Crisis in Its History

London. — Indignation with the rioters in Glasgow is finding vigorous expression throughout the country, says a United States correspondent. In this expression, which daily becomes more impressive, one hears the voice of that democratic electorate which recently overwhelmed pacifism and Bolshevism. London papers warn the disorderly elements that if they provoke the opinion of the nation much further they will be taught a lesson.

"We are going to have peace in this country," remarks the Daily Mail. "No combination of blather-skites and roughnecks shall deprive our democratic system and embroil us in the strife and misery of anarchy."

Nearly all the papers invite the malcontents to study the results of Leninism and Trotskyism in Russia and then say whether they want such conditions produced in Britain or anywhere else in the world. It is recognized on all hands that trades unionism is passing through the gravest crisis in its history. Its leadership is violently challenged. This means that a dagger is aimed at its heart for if its representative character goes it all goes. This is just what the anarchists at Glasgow want. "Destroy" is their watchword without a hint of what they would or could put in place of what they destroyed. Britain, the judgment of the correspondent, if this madness persists, will hit it as hard as she ever hit Prussianism.

Minard's Liniment Cures Garget in Cows.

When a man helps his wife with the housework, it takes him about twice as long to finish.

Reports State Huns Actually Starving

Paris. — The close personal study he has made of conditions in Germany has convinced Lieut.-Col. Harris of the U.S. medical reserve corps, that the German people are actually starving. He has just returned to Paris from a visit to Germany and says that while a superficial view of the country gives the impression that the war has not hurt Germany that country, in his opinion, has suffered more than any other.

Studying the situation as a physician Lieut.-Col. Harris found that many persons, particularly children, were very anemic as they were not getting enough to eat. The meat eating, beer drinking German, he says, had disappeared. The rations are 100 grammes of barley, five pounds of potatoes, half of them rotten; four pounds of bread and a quarter of a pound of meat per person per week.

Germany is a land of cemeteries, hospitals, and starvation, he says. No one knows the casualties in the war, and no one, in his belief, ever will. Col. Harris estimates that the casualties vary from a million and a half to three million killed and twice as many wounded. The German nation is bankrupt, according to this officer, and while he regrets the German people as the most despised in the world, he thinks that bread and meat should be sent to the women and children.

Russia Wants Peace

Soviet Government Willing to Make Concessions to Get It

New York. — The Russian Soviet government wants peace and is willing to make concessions to get it, but if the allies insist on war, the Soviets will fight to the end. Premier Lenin declared in a copyrighted interview published in the New York World.

The interview, which is the first obtained with the Bolshevik leader, was cabled from Berlin.

Lenin said that the Soviets were even inclined to pay the debts incurred by the old regime, if by that means the war can be stopped.

Asked what he thought of Russia's eligibility to the league of nations, Lenin replied that "they are not forming a league of imperialists to strangle the nations."

Put Responsibility on Royalty

Berne. — A violent rhetorical duel between the French and German socialists, with many reciprocal approaches and accusations, marked the second sitting of the international Labor and Socialist conference.

Otto Wells, the former military commander of Berlin, defended the German position, and said that the German Socialists already had settled the question of responsibility for the war in having taken all power from the princes and kings. Wells accused Great Britain of having killed 700,000 German women, children and old men by the "hunger blockade."

French Work Dye Plant

Berlin. — The French forces of occupation, according to a special despatch to the Vossische Zeitung from Frankfurt-on-the-Main, have taken possession of the Hoechst dye and chemical works and French chemists are working with German chemists in putting out dyes and certain chemicals to be exported to allied countries. Shipments of the chemicals to points in Germany have been prohibited.

Britain and U. S. Can Prevent Future Wars

Paris. — Success or failure of the league of nations depends almost wholly on Britain and the United States. This statement was made to the United Press by Major-General Frederick Maurice, British expert on military and international affairs. He was director of military operations for the British general staff when the British were opposing the German drive practically unaided, and he made his famous "Where is Blencroft?" statement.

"I am absolutely certain that a real league of nations is going through," said Maurice. "Every day it is more fully realized that the league is not an ideal, but is a workable proposition. The more closely the matter of restitution and restoration is gone into and the more actual information is obtained, the more certain it is that we will not get enough out of the central powers, either of money or material to set the world on its legs again. It is obvious that, at the very

Must Have Coal

Paris. — Hugh S. Gibson, Captain T. T. C. Ferguson and other representatives of the inter-allied food relief commission returned to Paris to make a report to Herbert Hoover, director general of the commission, after several weeks' travel through Poland, Austria, Hungary, Czechoslovakia, Yugoslavia, Serbia. "Coal is now the most pressing need in Czechoslovakia, Austria and Hungary," said Capt. Ferguson. "and without an increased fuel supply food relief on a large scale is impossible. Only one-tenth of the possible number of trains are operating in Austria and Hungary because of lack of coal, and conditions are little better in Czechoslovakia."

Program Suggested

Resolutions for World League Adopted by Peace Societies

Paris. — A conference of allied peace societies, comprising delegates of the United States, England, France and Belgium, favoring the league of nations project, has given out resolutions adopted by it in addition to the aims outlined in the plans handed by Leon Bourgeois to the allied premiers.

They declare for an international bureau of labor and periodic conferences between employers and employees in line with the British project now before the labor commissions. They recommend the creation of an international commission of education to inform the public on the functions of the league of nations and to educate the people in the doctrines of democratic citizenship.

They further recommend that the enemy countries be required to limit their armament and manufacture of arms and munitions in order to enable the enemy states to reduce their military forces.

They declare that the allied states should content themselves with the enormous stock of arms and munitions of war now in their hands as a result of the war and the seizure of many stores, and should forbid the sale of arms and munitions by the states in the league to others. American delegates declined to endorse some of the recommendations, holding that disarmament would not enable the states of the league to maintain sufficient force of control of the enemy states until the latter were completely disarmed. They also objected to the prohibition of the manufacture of arms and munitions as calculated to prevent scientific developments that might benefit the world.

Germans Damage Buildings

London. — During the bombardment of Bremen, the old cathedral, the bourse and the city hall were damaged and many houses partly destroyed, according to an Exchange Telegraph company despatch from Copenhagen.

The government troops made their entrance after the city had been bombarded. Many persons are reported to have been killed in the bombardment. Armed Spartacists from Gotha are on their way to Bremen to the support of the Spartacists there.

Italy's War Debt

Relatively Higher Than That of the Other Allies

Rome. — Italy's national debt is now more than \$12,500,000,000, whereas when she entered the war it was about \$750,000,000, declared Luigi Luzzatti, former premier and a leading Italian financial authority, in a statement urging financial aid to Italy. He said that when pensions, government bills to manufacturers and other necessary expenditures had been paid, the national debt probably would total \$16,000,000,000.

"Italy, I am sad to say, leads the whole world in the relative height of its war debt," he said. "Subtracting Italy's losses in men and money, her national wealth is only about \$20,000,000,000. If all the war loans of the entente should be thrown together in one consolidated sum, Italy and France, whose losses in men and substance have been the greatest, would be compensated by bearing a smaller proportion of the war debt."

"The United States and Great Britain are not only strong, but generous, and they will acknowledge that Italy and France, the two principal centres of Teutonic slaughter and devastations, should be supported financially, therefore, with correspondingly greater help."

Direction Finding

Stations Established

Will Prove of Great Value to Vessels Lost in Fog

Ottawa. — The department of the naval service has established on the east coast of Canada four direction finding stations which will, it is expected, prove of great value to vessels lost in the fog and unable to determine their position. These stations are located at Cape Sable, at the mouth of Halifax harbor; Cape Canso, and Cape Race, Newfoundland. From any or all of these stations a vessel equipped with wireless may obtain a bearing while still at a distance of several hundred miles from the coast.

At an ordinary wireless telegraph station there are no means for determining the direction from which incoming signals are being received. At the opening of the war efforts were concentrated upon the development of the direction finding station in order to locate the position of hostile craft carrying wireless equipment. An invention by two Italians solved the problem and this has been installed in the Canadian stations. Since the signing of the armistice, however, the stations have been placed at the disposal of commercial shipping and information to this effect is being distributed all over the world.

Looks Like Work of Huns

Railway Coaches From Germany Full of Gases Which Catch Fire

Paris. — Two railway coaches recently handed over to France by Germany, played a most important part in a puzzling accident on the Paris-Metz railway line, in which five persons lost their lives. Sixteen persons were injured.

Train No. 47, bound for Metz, had just entered the tunnel at Nanteuil, when the passengers occupying the two coaches handed over by Germany began to experience trouble in breathing and strong obnoxious gases began to fill up the coaches.

The passengers smashed the windows, but as soon as soon as fresh air came in contact with the gases, the coaches became a mass of flames. The passengers, in terror, fled to the tracks in the dark tunnel. A train going in the opposite direction crashed into them and five were killed.

Of the sixteen injured, all of whom were treated at the hospital at Chateau Thierry, eight suffered only from the effects of the gas. An official statement given out by the railway company says:

"The fire in the coaches was not due to any defect in the lighting or heating apparatus, nor to a hot box. The presence of the obnoxious gases is still unexplained. Both coaches were consumed by the flames."

Thinks Mandatory Plan Will Prove to be Futile

To Draft New Treaty

Paris. — Sir George Foster, Dominion minister of trade and commerce, interviewed by newspaper Excelsior, said that France had informed Canada of her desire to denounce the 1895 treaty, as well as all other similar treaties. Pending fresh agreements, "traffic of goods would continue under the old conditions. Continuing, Sir George said that the future clauses would naturally depend on the attitude of the two countries in accordance with the customs arrangements.

Claim Complete Success

Royalists in Portugal Have Proclaimed Monarchy

Paris. — A despatch from Oporto says that royalist sources in Portugal announce the complete success of the royalists at Elvas, 12 miles west of Badajoz. The despatch adds that the troops have proclaimed a monarchy.

Lisbon. — Monarchist troops, it is announced, have been defeated in action at Covilha, southeast of Oporto, near the Spanish frontier, by republican forces under Lieut. Feurtos, who are advancing on guard to the northeast. The republican flag now floats over the towns of Covilha and Castello Branco and the monarchists are retiring on Regoa, where their headquarters have been established.

Along the coast the republicans have occupied Fozca and Argaja and the monarchists are evacuating Estarreja, south of Oporto. Communication with Lisbon has been restored as far north as Aveiro.

Military courts have been established to consider the question of dismissing civil and military officials hostile to the republican regime. The government, it is added, has no confidence in the wardens of the prisons and penitentiaries and will dismiss them.

The government announces that the monarchist elements in the country will be held responsible for all damages in the zone where fighting is now going on, as well as for money expended in putting down the monarchist movement.

Allies Must Watch Germany

Brother-in-Law of Former Russian Emperor Issues Warning

Paris. — The former Grand Duke Alexander Michailovich, brother-in-law of the former Russian emperor, who has arrived in Paris, as he declares, "not for political purposes, but to make known the truth about Russia," says in an interview in the Matin that the allies must beware of Germany in Russia.

"France has every reason to save Russia," he declared. "If you do not intervene now, he sure that Germany will intervene in her own time. Beware of Germany. That people, which is now at your mercy, hides within itself a hate which shall find its first revenge in Russia."

"A league of nations or a society of peoples is such a tricked of. It remains to be seen if the nations will not have dealt themselves a mortal blow by hesitating too long to cleanse the Russian soil which threatens to contaminate the whole world."

Kaiser Is Legally Dead

Amsterdam. — Speaking to his tenants near Potsdam on the birthday of the former German emperor, Prince Eitel Friedrich, the second son of Herr Hohenzollern, said: "You will never see the kaiser again. Circumstances have wiped him out of the world's history. Legally speaking, my father is dead."

British Forces Prepare to Evacuate Northern Russia

Paris. — With the French still silent, the British are continuing to prepare for evacuation of their forces from Russia, whether the French accede or not.

In British military circles it was admitted that only the question of physical difficulties will determine whether their troops will come out by the end of April, or sooner. The Murmansk contingent can be moved immediately with comparatively little difficulty, but in the Archangel district there is already a considerable

New York. — Prediction that the mandates proposed at the peace conference for the society of nations will prove unsatisfactory, was made by William H. Taft, president of the league to enforce peace at the opening here of the Atlantic congress for a league of nations.

Asserting that to be effective, a league of nations must have executive, legislative and judicial branches, Mr. Taft added:

"There should be a court of conciliation to consider non-judicial questions. While we may accept the plan of mandates in the end it will prove unsatisfactory and some agency of the league will have to be put in operation, governing with a sole regard for the benefit of the people in the colonies and countries taken upon supervision. There should be an executive council to carry out the executive purposes of the league, made up of nations which contribute to the forces used in making its decrees effective."

Mr. Taft said that all nations should be represented in the league, and that the number of delegates allotted each should be fixed by charter members.

He was applauded when he denounced "this theory that party lines should influence your expression on a subject that overshadows parties and nations."

Termining talk of entangling alliances, Mr. Taft said:

"We are already in an entangled alliance, and we must see the thing through. Those who think we can go back into our shell of isolation are blind and deaf to the lessons we have learned. In future European wars there is no place for neutrals. We are sure to be drawn in, and we might as well face that fact."

Were at Their Best

Allied Armies Strongest When Armistice Was Signed

Washington. — The total strength of the U.S. army on November 11, when the armistice was signed, and when the American war effort was at its peak, was 3,703,873 officers and men, including the marine corps on duty with the army in Europe. A statistical table made public by the war department gives this figure.

In rifle strength, which means men "standing in trenches ready to go over the top with the bayonet," the allies total on July 1 was 1,556,000 compared with 1,412,000 for the Germans.

On November 1, when the enemy's reserves had been exhausted and his front line strength reduced by about half, the allies had a rifle strength of 1,485,000, representing odds of upward of 2 to 1.

From July 1 as the Americans continued to arrive, the allied superiority showed continued strength over the Germans, who had dropped on November 1 to a strength of 866,000.

When the great German drive was launched in the spring of 1918, the enemy had a definite superiority of approximately twenty per cent, the figures for April 1 showing an allied rifle strength of 1,245,000, and a German total of 1,569,000.

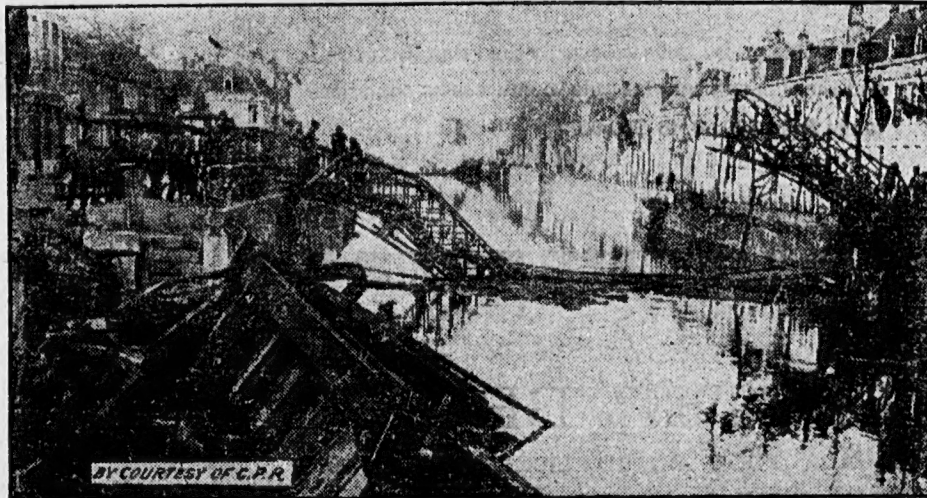

The Germans reached their maximum on June 1, with 1,639,000, while the allies reached their maximum on September 1, with 1,682,000.

"Save the Kaiser" Society Organizing

Amsterdam. — Societies to "save the kaiser" from being handed over to the allies are being organized in Germany, according to the Volks Zeitung of Osnabruck. Eitel Friedrich, second son of the former emperor, is said to have written a letter to the premier demanding that the government assist in the plan.

A proposal is made in British Columbia to remodel the police force of the province on the lines of the Northwest Mounted Police.

The Trail of the Hun

The River Scheidt and broken bridge at Tournai

Need Long Credits

In Order to Give the Nations Breathing Time

Paris. — Alvin W. Kreh, president of the Equitable Trust company of New York, who is visiting France for the purpose of studying the financial condition, and, if possible, ameliorating it, said to the Associated Press:

"The temporary suspension of liquidation by the governments to one another ought to be one of the expedients of inter-government finance. I mean that for the present we should have an international moratorium between the governments in order to give the nations breathing time."

"France owes England and America; Belgium owes France, England and America; Italy owes America, England and France. The small nations owe the big one. No one of them, large or small, can conveniently pay at the moment. Hence, they all need an international moratorium to afford time for reconstruction. Even Germany must have time to make payments."

"It seems to me that this is the time that America, with infinite advantage to herself, may supplement her military support, now that the occasion for such support has practically disappeared, becoming a genuine factor in the establishment of an intimate union with France for the promotion of the material interests of both countries."

Wounded Coming Via U. S.

Washington. — Plans for landing wounded Canadian troops at Portland, Maine, with the approval of the United States government, were announced by the American Red Cross. Transfer of the men by rail across Maine and New Hampshire will cut many hours off their journey homeward from France. The first load will embark at Portland in a few days, two consignments a month being expected.

The Canada, the first of the wooden 1,500 ton steamers being built in British Columbia for the French government, has been launched from the Lyall shipyards at Vancouver. Twenty of the ships are being built in Vancouver, and twenty at Victoria.

Will be Crime to Build Subs.

Statesmen Favor Abolition of the U-boat

London. — Referring to a report received from Paris by the way of New York that the American plan for assuring freedom of the seas includes the restricted use or abolition of the submarine, the Daily Telegraph says:

"The submarine campaign was aimed at this country, and we suffered worse than all other nations combined. There is danger that that fact may be overlooked. Besides ships we lost cargoes valued at hundreds of millions of pounds sterling, while 15,000 British men, women and children were assassinated at sea."

"As we made no special representations on this subject there has been a tendency to suggest that we emerged from this piracy rather well off. Let it be remarked once more that 9,000,000 tons of our shipping lie at the bottom of the sea. We are more interested than any community in the proposal for the abolition in this matter, but a large body of naval opinion, and even a larger proportion of statesmen on both sides of the Atlantic favor the abolition of the U-boat."

"If the world is to be safe for democracy something more than a declaration as to the limits within which submarines may be employed must be made. It must be stigmatized as a crime to build submarines and power must be secured to punish any nation which again embarks on this kind of naval construction."

Air Mechanics Rebel

London. — More than four thousand mechanics of the Royal Air Service corps have refused to go on duty in depots adjoining London. They claim that their contract with the government as soldiers is ended and demand that they be demobilized and engaged as civilians to continue the work, or be given the same pay that civilians would earn.

By Money Order Only

Ottawa. — The post office department announces that the Italian postal administration urges that all remittances to that country should be made by means of money orders, as it declines all responsibility in case of tampering with valuable enclosures in registered letters.

Canadians Await Decision

Pegardin, the Allied Policy in Russia and Siberia

Vladivostok. — The decision of the peace conference regarding the allied policy in Russia and Siberia is eagerly awaited by the Canadians and others of the allied forces here. The general belief at present is that the attitude of watchful waiting will continue in the meantime, but the military heads here appear to be uninformed in regard to future procedure.

The Russian press guardedly is opposing withdrawal of the allied forces, and is urging active participation against the Bolsheviks. In accordance with their announced policy, the Japanese are evacuating part of their force. The Czechs are withdrawing from the Ural front to guard the railway line.

The proposed trip of General Elmsley, commanding the Canadians here, to Omsk has been postponed indefinitely.

To Determine Aliens

Identification Cards Will Distinguish Aliens in Province of Manitoba

Winnipeg. — It is announced that the provincial government has decided to appoint a board or committee to investigate the alien situation in the province, with a view to the identification of those of enemy origin or sympathies. This will be carrying out the undertaking promised by the premier to the delegation which waited upon the government before the sitting of the legislature.

The board will consist of three members, one being appointed by the government, and the other two representing the returned soldiers and the trades and labor council. It is the intention of the government that its representative should be a justice of the supreme court.

The duties of the board will be to issue cards of identification which will distinguish aliens of known enemy sympathies from those belonging to allied nations or who have not shown their antipathy to Canada in the war.

Ontario lumbermen have sent a representative overseas to endeavor to secure some of the large orders of lumber required in reconstruction work in Great Britain, France and Belgium.

Bassano Bowling Bunch Visit Gleichen

Last Friday evening the 3 B's came up with the intention of trimming the local experts but had to return without the bacon. Stiles crew bowled a very creditable game but owing to a couple of weak spots namely, McCaugherty and McKee their total was in the minority. Baldy Summerville was substituted for McKee in the last game but all you had to do was to gaze into the countenance of the Bassano manager and you knew that he had not added any strength to the line up. Our boys bowled a very steady game throughout. It is generally believed that modesty was the only thing that prevented them from stepping out and making the majority much larger.

Bradshaw continues to be the wonder of the age. His great knowledge of the game having been acquired in the last 45 days. Bates ran him very close for first place. Stiles as was expected was high man for Bassano.

East Arrowood

The drop in temperature interfered with sending our notes to town in time for publication last week.

The local U. F. A. met at the school house to listen to an address by Vice-President Trego. An interesting and instructive discussion of municipal hail insurance was enjoyed by all. Convention reports are expected from the delegates the first Monday in March.

On Thursday evening the smaller boys and girls classes in the Sunday school met before the singing class and organized under the name of, "Children of the King", adopting the motto, "We are in the King's Business." Dortha Irwin was chosen president, Melvin Shatto vice-president and Don Beagle secretary.

Sunday dinner and a pleasant afternoon was spent at the George Duncan's home by about 25 young folks. Jack Beagle was the hero of the horse saddling affair but escaped with a whole neck. We understand that he has been forbidden to try the same again. Jack's kindness in making extra trips with his car was highly appreciated. The little girls enjoyed being taken to the show by Mr. Young but Jim and Mrs. Beagle made the big sensation as a whole show.

The beautiful weather has made parties among the young people very popular. Among the recent ones was that at the Pobst home on the last Friday evening in January. The inspiration for this gathering was the birthdays of Katie Pobst, Le Roy Halleck and James Duncan. About 40 young people met to celebrate the occasion in games and songs, indoors and out. Late in the evening delightful refreshments were served. Before dispersing to their homes the guests revived the time honored custom of putting under the bed those whose birthdays were being celebrated.

War Savings Stamps Promotes Thrift.

The Busy Store

We have just received the samples for Spring Suits from the well-known House of Hobberlin.

When you select a Suit at this store, no matter what model or weave, you are assured of complete satisfaction, the only consideration to look out for in spending your money.

3 SIGNIFICANT POINTS 3 about ALBERTA MUNICIPAL HAIL INSURANCE which should secure YOUR VOTE—

THE LIBERAL WITHDRAWAL CLAUSES. Any crop may be withdrawn entirely from the operation of the Act by giving notice to the Secretary-Treasurer before 15th June. Crop destroyed by any other cause than hail may be withdrawn up to 20th of July and a proportionate refund of premium will be allowed.

EASY PAYMENT OF PREMIUMS. Premiums are payable on or before 15th December without interest. This gives you insurance on CREDIT terms at a CASH price.

THE CHEAPEST SAFE PLAN of Hail Insurance yet devised. It is not only a distinct asset to the individual but to the community as a whole. Moreover, the cost is so low that it does not prohibit any farmer from carrying additional insurance elsewhere.

For further information see your Secretary-Treasurer, or write

The Hail Insurance Board

- 7 If been Overseas.....
- 8 If still in Canada.....
- 9 Name and address of Informant.....
- 10 Date of Enlistment.....

Write in print letters and return at once to The Gleichen Call.

QUEENSTOWN

A Hardtime dance is to be given in the Milo Farmers Hall tomorrow—Friday—evening, Feb 14th.

We are soon to have a local bank and a blacksmith shop. Several other branches of business have their eye on the coming town of Milo which will be somewhere near old Snake Lake.

The great question now in the minds of all is will we have a railroad or not this year. We may and then again we may not. Still on the strength of what we may get Queenstown or rather Milo is growing. Our local firm, Aasgard & Stewart, are doing their very best to keep up with the great demand for various kinds of goods.

The question that is worrying the farmer is will it rain this year? If ever there was a year when farming looks like a gamble this will be the year. There is absolutely no moisture anywhere outside of what has been put into Lake McGregor by the Irrigation Co. and every \$2 bushel of wheat the farmer puts in to the ground this spring is a bet that it will rain. As we have never had more than one dry year at a stretch we all expect it will rain a whole lot this coming summer.

The farmers union held a well attended meeting in the hall Saturday afternoon Feb. 1. The meeting was principally called to discuss a municipal hospital and the hail insurance proposition. The new hail insurance proposition adopted by the provincial legislature was endorsed.

Queenstown is not in favor of building a hospital at Vulcan, but a committee was elected to take steps to establish a nursing home in the district. The meeting also decided to arrange for a great farmers rally sometime in March before seeding. Outside speakers, big supper, program and dance and the committee will endeavor to secure the famous Gleichen orchestra for the occasion.

Union Church Services

February 16th.

11 A.M. Sunday School and Bible class.
7:15 P.M. Service of song.
7:30 P.M. Evening service.
Subject: "A young man's great decision".

Save by the W.S.S. plan.

St. Valentine's night—Feb. 14—a social dance will be given in the Gleichen Opera House, with Mrs. Onstad's orchestra in attendance.

C. J. Gaudaur has been dangerously ill in a Calgary hospital and his friends will be pleased to learn he is now recovering slowly.

When David W. Griffith was directing scenes just back of the trenches in France, shells fell and exploded within a hundred feet of him three different times, and at each explosion Lillian and Dorothy Griffith promptly fainted. The bursting shells are shown in his stupendous love drama "Hearts of the World", which appears in Gleichen Opera house Feb. 13th.
